Please refer to Disclosure section on next page for further information on Fees and Costs

Cumulative performance (5 years)

The chart reflects the value (monthly data points) of a R100 investment made on the 01/01/2013

Effective Annual Cost

The Effective Annual Cost (EAC) is a measure which has been introduced to allow you to compare the cost you incur when you invest in different financial products. It is expressed as a percentage of your investment amount. The EAC is made up of four charges, which are added together, as shown in the table below. Some of the charges may vary, depending on your investment period. The EAC calculation assumes that an investor terminates his or her investment in the financial product at the end of the relevant periods shown in the table.

Charges	1 year	3 Years	5 Years	10 Years
Investment Management	0.25%	0.25%	0.25%	0.25%
Advice	0.00%	0.00%	0.00%	0.00%
Other	0.55%	0.55%	0.55%	0.55%
Effective Annual Cost	0.80%	0.80%	0.80%	0.80%

Portfolio objectives & Strategy

The primary objective of the portfolio is to provide above-average total returns over the medium to long-term, by investing in shares listed offshore. Our approach combines a top-down and bottom-up analysis not constrained by one particular investment style. We believe the best returns come from a flexible approach during different economic and market cycles. Holdings are chosen using a clearly defined investment process that selects companies with favourable fundamentals that are supported by a macro tailwind or secular trend. The portfolio is dominated by companies with high quality durable business models that exhibit good long-term prospects driven by an identified trend or theme.

Portfolio features

- An ideal vehicle for longer-term investors seeking access to global blue-chip equities.
- Given the high equity bias, the portfolio is considered "high risk" in the overall risk spectrum and is suitable for investors who can accept the price volatility that comes with investing in the equity markets.
- The global equity portfolio is a diversified "pure" equity portfolio which contains between 20 and 30 offshore-listed companies. Cash levels are targeted to be below 5%.
- Holdings are chosen via a rigorous investment process that selects the shares with the most favourable forecast returns on a rolling three-year basis.

Disclosures and FAIS Notice

This document (together with any associated verbal presentation) (this “document”) is provided on the express understanding that the information contained therein shall be regarded and treated as proprietary to Absa Stockbrokers and Portfolio Management (“SPM”) and shall not be regarded as research material of any kind and is for illustrative purposes only. This document shall not be reproduced without the prior written consent of SPM. This document shall not be used, in whole or in part, for any purpose other than for the consideration of the information set out therein. This document has been prepared solely for information purposes and accordingly does not constitute an offer, a solicitation of an offer, invitation to acquire any security or to enter into any agreement, or any advice or recommendation to conclude any transaction (whether on the indicative terms or otherwise) nor does it create any liability or obligation on the part of SPM and must not be deemed as such. Neither SPM, nor any affiliate, nor any of its respective officers, directors, partners, or employees accepts any liability whatsoever for any direct or consequential damages or loss arising from any use of this document and its contents.

Any information, illustrative prices, technical views, disclosure materials or analyses provided to you have been prepared on assumptions and parameters that reflect good faith determinations by SPM and do not constitute advice by SPM and should not be relied upon as such. The information, assumptions and parameters used are not the only ones that may reasonably have been considered and therefore no guarantee is given as to the accuracy, completeness, or reasonableness of any such information, quotations, disclosure or analyses.

The past performance of any securities or other products is not an indication of future performance. No representation or warranty is made that any indicative performance or return indicated will be achieved in the future.

Any transaction or agreement to perform certain services that may be concluded pursuant to this document and/or any associated verbal presentation shall be in terms of and confirmed by the signing of appropriate documentation, on terms to be agreed between the relevant parties.

Prospective investors should obtain independent advice in respect of any product detailed in this document as SPM provides no opinion or advice including investment, tax, exchange control regulations or legal advice and makes no representation or warranty about the suitability of a product for a particular client or circumstance.

Transactions described in this document may give rise to substantial risk and are not suitable for all investors. This information is to be used at own risk and SPM makes no representation with regards to the correctness of the information herein. By accepting this document, you agree to be bound by the terms, conditions and limitations set out herein.

The views in this document are those of SPM and are subject to change, and SPM has no obligation to update its views or the information as contained in this document.
